

AI Medical Report Analysis

Medical Report Summary

■ Abnormal Findings

- RBC: 15.0 million/uL (Normal: 4.2-5.8)
- MCH: 101.0 pg (Normal: 27-33)
- Albumin: 8.3 g/dL (Normal: 3.5-5.0)

■ Normal Findings

- MCHC: 32.0 g/dL
- AST: 1.0 U/L
- Bilirubin: 1.1 mg/dL

Lifestyle Recommendations

Maintain a balanced diet rich in fruits, vegetables, and whole grains to support overall health.

■ Diet Suggestions

- * Include foods high in omega-3 fatty acids (e.g., salmon, walnuts) for heart health.
- * Eat more fiber-rich foods (e.g., fruits, legumes, whole grains) to promote digestive health.
- * Limit or avoid processed and sugary foods that can lead to inflammation.

■ Exercise Advice

Regular physical activity can help improve cardiovascular health, reduce inflammation, and boost immune function. Aim for at least 30 minutes of moderate-intensity exercise per day.

■ Follow-up Tests

Schedule a follow-up appointment in six weeks to monitor the effects of abnormal findings on overall health.

■■■■ When to Consult a Doctor

Consult a doctor if you experience any symptoms or concerns related to these test results, such as fatigue, dizziness, or changes in urination frequency.
